

OC Public Works is currently seeking community feedback regarding improvements needed for sidewalks, push buttons, and ramps in unincorporated Orange County.

Learn more about the Plan and participate by providing your perspective at:

ocpublicworks.com/ada

Orange County Public Works (OCPW) is developing an ADA Transition Plan to identify and plan for removing access barriers in your neighborhood! Work began on the Plan in Summer of 2022 with an ADA compliance review (in 26 unincorporated Orange County areas) of pedestrian facilities, including sidewalks, curb ramps, and traffic signal push buttons, within the public right-of-way.

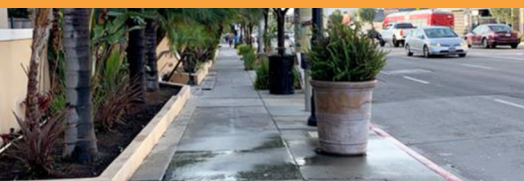

Our teams would like to hear from you regarding the ADA improvements that are most important to you and your neighbors...

Scan the QR code above with a smartphone camera to see our interactive map where you can provide comments and take our survey.
